About Me

Master in Computer Engineer by Instituto Superior Técnico. I started my professional life on a part-time job in Publicis Group, but currently I have a full-time job in Celfocus. My main interests are be aware of new technologies, new architecture models and new ways of thinking, in order to improve my abilities to develop innovative solutions to the most persistent IT problems and to respond to the new client's demands. As a communicative person, I always try to build a good team spirit, helping others as much as I can and being helped as well. Furthermore, my free time interests are important as well, I am passionate about all kind of sports and physical exercise, I started as a football player, but soon I realized that tennis was the most suitable sport for me. Thanks to that I became an energetic and ambitious person, who was developed a mature and responsible approach to any task that I undertake

About Me

MSc in Biomedical Engineer by University of Minho (2013-2018). I started as a Researcher in IPATIMUP, but soon I realize that it was not a job for me. I am passionate about technology and about using my technical know-how to benefit other people and organisations. As a Padel athlete and a passionate traveler, I have excellent interpersonal skills, enabling me to interact with a wide range of clients. I am an energetic, ambitious person who was developed a mature and responsible approach to any task that I undertake, or situation that I am presented with.
